...web-based courses and tracking system for healthcare professionals.

## Bioterrorism: General Awareness for Emergency & Primary Care Providers

Additional Bioterrorism Courses Are Coming Soon!

### Transforming Knowledge Into Practice

The threat of bioterrorism is real! Preparedness and response training for healthcare professionals, first responders and public health officials is a national priority. This course focuses on reviewing the potential threats associated with recognizing and responding to a bioterrorist attack.

#### What is CareLearning?

CareLearning is a non-profit organization formed by over 42 state hospital associations to provide its members with quality, cost effective education and record keeping. The organization launched a website-- [www.CareLearning.com](http://www.CareLearning.com)-- to provide web-based courses and a learner tracking system for healthcare professionals. While individuals can access most courses on their own, hospitals and healthcare organizations will want to consider participating as an organization and bulk enrolling its employees.

#### Questions???

For more information, or to take a demo course, go to [www.CareLearning.com](http://www.CareLearning.com). You can also contact Laura Cornelson at [lcornelson@tha.org](mailto:lcornelson@tha.org), or call (512) 465-1015 to get more information, or to arrange for a CareLearning presentation.

This is the first course in a series. Watch for the release of additional Bioterrorism courses soon!

#### System Requirements

To view the *Bioterrorism: General Awareness for Emergency & Primary Care Providers* course, you will need a computer equipped with a sound card; access to the Internet with any connection above a 56K, and Real Player software (free download). The faster you're computer and Internet access, and the more current your browser, the more pleasurable your learning experience will be.

#### TARGET AUDIENCE
