

The Texas Hospital Association Presents:

CareLearning.com

...web-based courses, Webinars and tracking system for healthcare professionals.

The Administrative Management System(AMS)

is a software-based system that *careLearning* Administrators receive as users of *careLearning* courses. The Administrative Management System coordinates all e-learning activities and all live events at your organization.

What is CareLearning?

CareLearning is a non-profit organization formed by over 42 state hospital associations to provide its members with quality, cost effective education and record keeping. The organization launched a website--

www.CareLearning.com-- to provide web-based courses and a learner tracking system for healthcare professionals. While individuals can access most courses on their own, hospitals and healthcare organizations will want to consider participating as an organization and utilizing our automated enrollment and registration features.

Questions???

For more information, or to take a demo course, go to www.CareLearning.com. You can also contact Laura Cornelson at the Texas Hospital Association at lcornelson@tha.org or (512) 465-1015, to get more information, or to arrange for a *CareLearning* presentation.

System Requirements

To view *careLearning* courses, you will need a computer equipped with a sound card; access to the Internet with any connection above a 56K, and Flash or Shock Wave Player software (free download). The faster your computer and Internet access, and the more current your browser, the more pleasurable your learning experience will be.

Product Comparison

For help in comparing your current education costs to *careLearning* ask about our Return on Investment Calculator and the *careLearning* Product Guide.

You can contact Laura Cornelson at lcornelson@tha.org or (512) 465-1015, to get more information.

www.CareLearning.com

AMS Highlights:

Employees' information can be taken from existing systems and transferred to the AMS. The AMS then handles all communication without any interface requirements or security issue for your organization

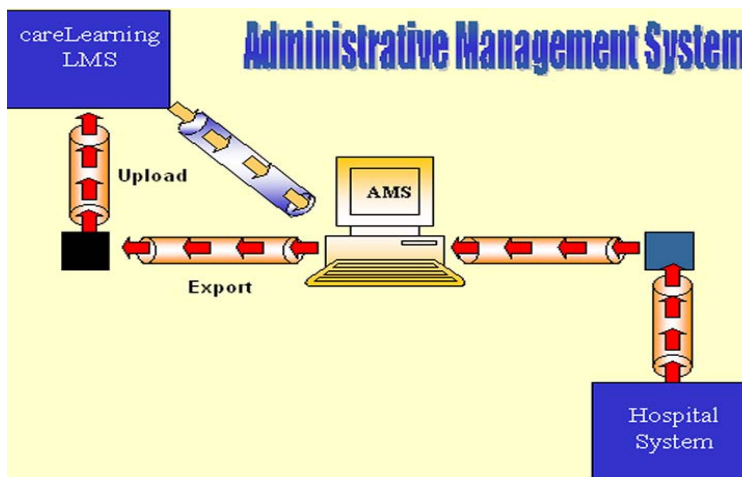

Upon importing employee information, the AMS checks for errors, automatically creates student IDs/Passwords, prepares data for export to the internet, prints employee memos, and automatically assigns courses to individual employees via the AMS curriculum feature

Allows for the tracking of non-*careLearning* educational events (Live Events) for both employees and non-employees, so all educational activities can be tracked and reported in one convenient central location

Tracking employee professional licensures, and certificates can be done utilizing the TrackIt feature in the AMS

ID Badge Scanning- the *careLearning* AMS has several built in tools to assist you in both registering and recording attendees at live events held by your organization. The fastest and simplest is using the *careLearning* employee ID Badge scanners. (Compatible with most ID Badges)

30-Day Demo Available!

There are no membership or maintenance fees with *CareLearning*!

Free with the purchase of the Health and Safety Compliance Series

To access a course, or view a course description, go to www.CareLearning.com and click on the Course Catalog. Click a course and follow the easy step-by-step instructions to register and pay for the course. If you are interested in purchasing courses for multiple users in your organization, please contact Laura Cornelson at lcornelson@tha.org or (512) 465-1015.
