WHY IT'S NEEDED: Building Stronger Communities

Citizen

Equal access to resources that promote health and well-being

Workforce

Acquire new knowledge
Build Community of Practice
Reach more with best practices

Community

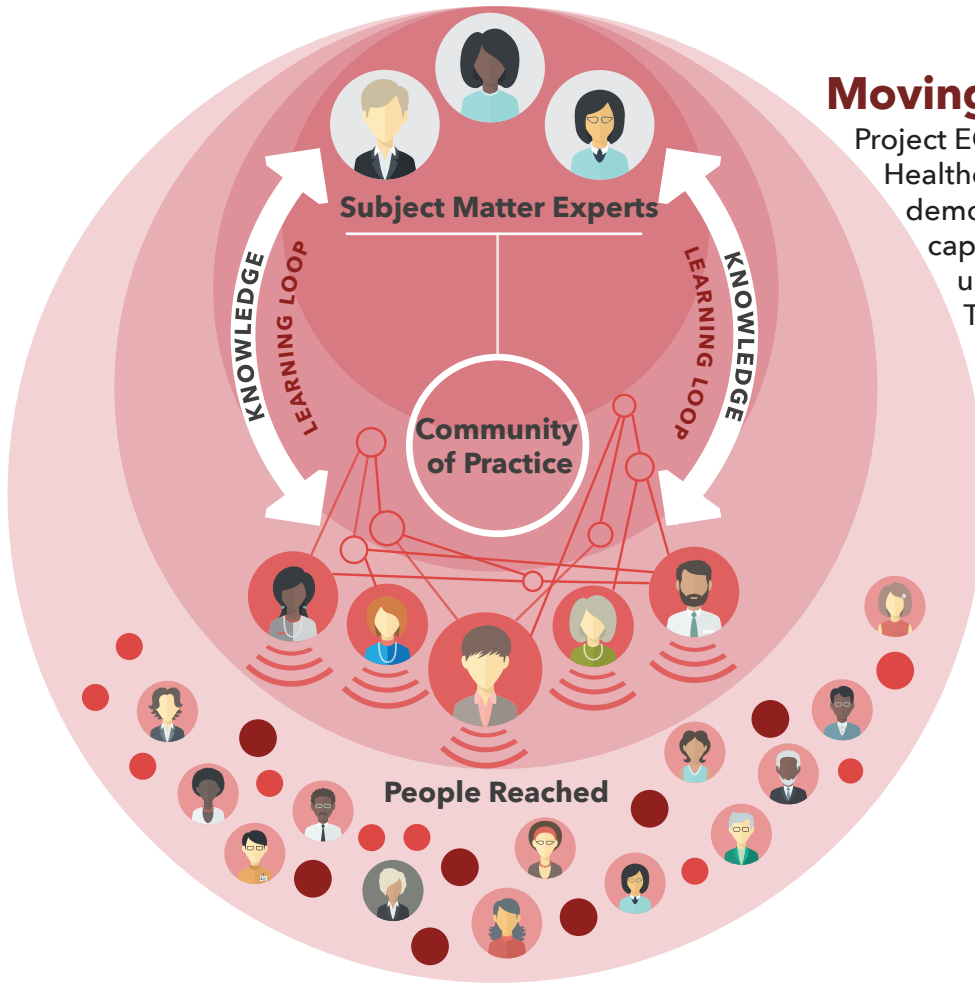

Reduce inequities
Increase access
Engage multiple players

System

Improved quality
Greater reach
Reduced cost

ECHO Model™

Moving Knowledge, Not People

Project ECHO® (Extension for Community Healthcare Outcomes) is a movement to demopolize knowledge and amplify the capacity to provide best practice care for under-served people all over the world. The ECHO Model™ is committed to addressing the needs of the most vulnerable populations by equipping communities with the right knowledge, at the right place, at the right time.

Principles of the ECHO Mode

-  Use Technology to leverage scarce resources
-  Share "best practices" to reduce disparities
-  Apply case-based learning to master complexity
-  Evaluate and monitor outcomes
-  All teach, All learn

Benefits of Becoming a Part of the ECHO community

-  Access Communities
-  Reduce Disparities
-  Promote Consistency
-  Rapid Dissemination
-  Increase Professional Knowledge
-  Isolation Decrease
