Local Jurisdiction determines if Person meets 2019-nCoV Patient Under Investigation (PUI) criteria

Contact Local or Regional Health Department***

Contact DSHS EAI and confirm that it meets PUI criteria

DSHS contacts CDC Emergency Operation Center

CDC agrees it meets PUI criteria

Submitter**** sends specimen to CDC lab

2019-nCoV testing not recommended

DSHS provides specimen guidelines

Submitter collects and holds specimen until CDC agrees to testing

Yes

No

Yes

No

Fever* and symptoms of lower respiratory illness (e.g., cough, difficulty breathing).

In the last 14 days before symptom onset, a history of travel from Wuhan City, China.

- or -

In the last 14 days before symptom onset, close contact** with a person who is under investigation for 2019-nCoV while that person was ill.

In the last 14 days, close contact** with an ill laboratory-confirmed 2019-nCoV patient.

The criteria are intended to serve as guidance for evaluation. Patients should be evaluated and discussed with public health departments on a case-by-case basis if their clinical presentation or exposure history is equivocal (e.g., uncertain travel or exposure).

Additional Information

- CDC 2019-nCov

- Situation Summary

*Fever may not be present in some patients, such as those who are very young, elderly, immunosuppressed, or taking certain fever-lowering medications. Clinical judgment should be used to guide testing of patients in such situations.

**Close contact is defined as-

a) being within approximately 6 feet (2 meters), or within the room or care area, of a novel coronavirus for a prolonged period of time while not wearing recommended personal protective equipment or PPE (e.g., gowns, gloves, NIOSH-certified disposable N95 respirator, eye protection); close contact can include caring for, living with, visiting, or sharing a health care waiting area or room with a novel coronavirus case. - or -

b) having direct contact with infectious secretions of a novel coronavirus case (e.g., being coughed on) while not wearing recommended personal protective equipment.
