**Subject:** Hospital PPE Supplies - Reference No. 20201201-10022

**WARNING:** This email is from outside the HHS system. Do not click on links or attachments unless you expect them from the sender and know the content is safe.

Dear Officer for Public Records:

This request is made under the Texas Public Information Act, Chapter 552, Texas Government Code, which guarantees the public's access to information in the custody of governmental agencies. I respectfully request raw data — in a machine-readable database or spreadsheet format such as Excel, CSV, Access, SQL or XML — pertaining to PPE (personal protective equipment) supplies collected by DSHS from each hospital as part of the [COVID19 Hospital Data Points](#) from the earliest date available through the latest date available.

The data should include all fields in the COVID19 Hospital Data Points that contain non-exempt information about PPE supplies, including but not limited to the following types of information:

- Hospital name and identifying hospital information, including but not limited to: Hospital name, CCN, OrgID (if available), State, County, ZIP
- Are your PPE supply items managed (purchased, allocated, and/or stored) at the facility level or, if you are part of a hospital system, at the health system level (or other multiple facility group)?

- Calculated days of on-hand supply in stock for each PPE category
  - N95 respirators
  - Other respirators such as PAPRs or elastometrics
  - Surgical and procedure masks
  - Eye protection including face shields and goggles
  - Single-use gowns
  - Gloves
- On-hand supplies in units for each category
  - N95 respirators
  - Other respirators such as PAPRs or elastometrics
  - Surgical and procedure masks
  - Eye protection including face shields and goggles
  - Single-use gowns
  - Gloves
- Is the facility able to obtain these items? And is the facility able to maintain at least a 3-day supply of these items? For each category:
  - Ventilator medications
  - N95 masks
  - Other respirators such as PAPRs or elastometrics
  - Surgical and procedure masks
  - Eye protection, including face shields and goggles
  - Single use gowns
  - Gloves
  - Are you able to maintain a sufficient supply of launderable gowns?
- Does the facility use reusable/launderable isolation gowns for the care of any patients on any patients on transmission-based precautions?
- Specific critical shortages for which the facility is currently experiencing or

anticipate experiencing in the next three days?

Note: This request does NOT include ventilator supplies or any data that would be considered proprietary.

I would like to reiterate that I am seeking all fields containing non-exempt information about PPE supplies in the COVID19 Hospital Data Points collected by DSHS and gathered for each hospital. That means fields containing the above information, and fields containing any additional information not listed, but that would still be disclosable under the law. If there are any questions or if there are any issues with the request, please do not hesitate to contact me by telephone (863-640-3089) or by email ([castudillo@texastribune.org](mailto:castudillo@texastribune.org)).

Disclosure of this information is in the public interest because providing a copy of the information about hospital resources during a pandemic primarily benefits the general public. I therefore request a waiver of all fees and charges pursuant to Section 552.267 of the act.

I shall look forward to hearing from you promptly, as specified in the law. Thank you for your cooperation.

Take care,  
Carla
